Introduction to Round Table India

Round Table India (RTI) is an organization of non-political and non-sectarian young men between the age group of 18 and 40. The aim of the young men is to promote service, fellowship, and goodwill in national and international affairs. Round Table India, the association, was formed in 1962 with the membership of 100 enthusiasts. It has, over the last 4 decades, grown to become a 4600-member strong association, Individuals who rise above personal concerns to seek and serve the larger needs of the community. Round Table Trust is a Trust floated by its parent body.

We have 303 chapters called 'Tables' located in 124 cities and towns of India, comprising 4,600 young leaders from business, entrepreneurs, technocrats, and professionals, driven by the passion of eradicating illiteracy.

Round Table India is a service organization with National Executive, a well - structured organization. Our administrative costs are covered by an independent budget.

Round Table India Trust is a Public Charitable Trust registered u/s 12 AA of IT Act. It has got 80 G approval issued by ITO, Chennai. It has also obtained registration from Govt. of India, Ministry of Home Affairs, New Delhi to receive foreign donations.

Round Table India's main objective is to promote education through its National Project.

Round Table India's focus is on building infrastructure and promoting education for posterity and hence RTI has put in colossal efforts to build FTE School Blocks across the nation.

Round Table India, under Freedom Through Education, has built 7,141 classrooms in 3,041 projects, impacting 7.86 million children. For more information about Round Table India, you can visit our

Introduction to Nagpur Round Table 83 A Registered Trust

Illiteracy has been a persistent challenge in India for decades. However, projections indicate a gradual increase in the literacy rate, which is expected to reach nearly 80% by 2024. Key factors contributing to this trend include enhanced educational policies, improved infrastructure, and support from NGOs and organizations like RTI and NRT. Various surveys estimate that illiteracy costs the Indian economy billions annually. Recognizing this as a serious issue, NRT 83 has launched a mission to eradicate illiteracy and achieve 100% literacy in the nation.

Through the campaign “Freedom Through Education,” NRT 83 has been actively involved in providing education by building classrooms and supplying essential resources such as water, toilets, and books. Believing that literacy is a path to freedom, NRT 83 in Nagpur is committed to serving the nation. As a Zero Overhead Organization, NRT 83 covers all administrative costs through its members, ensuring that 100% of donations go directly towards constructing school buildings and providing other necessary facilities.

Bridge the Gap is the primary foundation that took this project under consideration. After diligent evaluation, the scope of work was found to be quite extensive and needed more hands. At this phase, the Nagpur Round Table collaboration came into being. The project was thoroughly studied by NRT83, and then the decision to join this glorious cause was taken.

Beyond just infrastructure, Bridge the Gap will also play a crucial role in enhancing the quality of education at the school. With their expertise, they will help improve the curriculum, provide better-trained teachers, and ensure students receive a more holistic learning experience. By partnering with BTG, we ensure that once the school is constructed, it is not just a building but a hub of quality education and growth for the children.
